

iFlux Secure Search & Replay

Retire the legacy recorder. Keep every recording.

Read-only extraction from the legacy estate at up to a million calls a day, reconciled call by call, encrypted on arrival and served from a replay portal for as long as your retention requires.

	COUNTER	LEGACY	COREC X	
Storage	Calls found	1,204,331	1,204,331	✓
Replay	Audio files	1,204,331	1,204,331	✓
Case	Metadata rows	1,204,331	1,204,331	✓
Audio	Missing	0	0	✓

• Signed comparison report Ready to decommission

✓ Zero-miss migration

✓ Encrypted on arrival

✓ Replay that feels modern

✓ On-premise or your own cloud

Up to 1 M calls / day

Extraction rate

≈120 M recordings

Sized for

0.5× to 5×

Playback

13

Reports

What iFlux Secure Search & Replay does for you

Zero-miss migration

Six reconciliation counters, exceptions itemised, a signed source-versus-destination study and a decommission checklist for the auditor.

Six counters

Signed study

Decommission checklist

Encrypted on arrival

Per-file encryption through CoreSec KMS, crypto-shred on purge and keys never stored with the media.

Per-file encryption

Crypto-shred

Keys held by KMS

Replay that feels modern

Separate agent and customer lanes, waveform, and playback from half speed to five times.

Stereo lanes

Waveform

0.5× to 5×

Governance built in

Legal hold, four-eyes deletion, retention policies and an audit of every search, play, download and export.

Legal hold

Four-eyes deletion

Everything audited

Works with what you run

Legacy recorder databases and APIs

SAN, NFS, SMB or object-storage archives

Directory and single sign-on

CoreSec KMS

Security, built in

- ✓ Read-only access to source systems
- ✓ Encrypted everywhere
- ✓ Role-based access
- ✓ Crypto-shred on purge

Specifications

Sized for	≈120 M recordings
Playback	0.5× to 5×
Reports	13
Deployment model	On-premise, air-gapped or bring your own cloud
Installation	Signed, offline installer

Where iFlux Secure Search & Replay makes the difference

Retire the legacy recorder without losing a single call

Switching recorders means years of recordings stranded in a system nobody wants to keep paying for.

OUTCOME
Decommission with a signed study in hand.

Replay a 2019 call for the regulator in minutes

Old recordings sit in archive formats that only the original vendor can play.

OUTCOME
Regulator requests answered the same day.

See iFlux Secure Search & Replay on your own infrastructure.

Book a demo, or ask our product team for the architecture pack and a sizing.
